

**Governance of the Domain Name System and the Future Internet (Igov2)  
Third Symposium 2013**

***Future Internet – DNS Governance – Users and the Internet***

Thursday 5 September

|                                 |                                                                                                                                                                                                  |
|---------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>9:00- 9:30</b>               | <b>Registration and coffee</b>                                                                                                                                                                   |
| <b>9:30-09:45</b>               | <b>Welcome to Igov2 project and NRCCL</b><br>Lee A. Bygrave (UiO)<br><br><b>All participants briefly introduce their current research focus</b>                                                  |
| <b>Session: Future Internet</b> |                                                                                                                                                                                                  |
| <b>09:45-10:30</b>              | <b>Future Internet</b><br>Wolfgang Kleinwächter (University of Aarhus)                                                                                                                           |
| <b>10:30-10:45</b>              | <b>Break</b>                                                                                                                                                                                     |
| <b>10:45-11:30</b>              | <b>(Two alternative topics suggested:)</b><br><b>The Internet of Things: Privacy and efficiency issues / Legal and technical implications of the use of DNS blocking</b><br>Gisle Hannemyr (UiO) |
| <b>11:30-12:45</b>              | <b>Panel discussion:</b><br><b>The Future Internet and the Future DNS: Challenges, opportunities</b><br>TBD (participants from registries, registrars, governments)                              |
| <b>12:45-13:30</b>              | <b>Lunch</b>                                                                                                                                                                                     |
| <b>Session: DNS Governance</b>  |                                                                                                                                                                                                  |
| <b>13:30-14:15</b>              | <b>Evaluating the Uniform Rapid Suspension System for new gTLDs</b><br>Tobias Mahler (UiO)                                                                                                       |
| <b>14:15-14:30</b>              | <b>Break</b>                                                                                                                                                                                     |
| <b>14:30-15:15</b>              | <b>New gTLDs and jurisdiction</b><br>Francis Augusto Medeiros (UiO)                                                                                                                              |
| <b>15:15-15:30</b>              | <b>Break</b>                                                                                                                                                                                     |
| <b>15:30-16:15</b>              | <b>An international treaty for Internet governance?</b><br>Joanna Kulesza (University of Lodz)                                                                                                   |
| <b>16:15-16:45</b>              | <b>Discussion and summing up of afternoon session</b>                                                                                                                                            |

Symposium Schedule (Day 2)  
Friday 6 September

|                                             |                                                                               |
|---------------------------------------------|-------------------------------------------------------------------------------|
| <b>9:00-9:15</b>                            | <b>Coffee</b>                                                                 |
| <b>Session: Internet services and users</b> |                                                                               |
| <b>9:15-10:15</b>                           | <b>Cloud governance</b><br>Kevin McGillivaray (UiO)                           |
| <b>10:15-10:30</b>                          | <b>Break</b>                                                                  |
| <b>10:30-11:15</b>                          | <b>The consumer perspective in IG by contract</b><br>Lee A. Bygrave (UiO)     |
| <b>11:15-11:30</b>                          | <b>Break</b>                                                                  |
| <b>11:30-12:15</b>                          | <b>User empowerment in Internet governance</b><br>Emily M. Weitzenboeck (UiO) |
| <b>12:15-12:45</b>                          | <b>Discussion and summing up of session</b>                                   |
| <b>12:45-13:30</b>                          | <b>Lunch</b>                                                                  |
